PROFESSIONAL SUMMARY

Motivated BCA student with hands-on experience in full-stack development using PHP, Python, and MERN stack. Built multiple real-world applications focused on performance and user experience. Passionate about solving practical problems and continuously improving technical skills. Seeking an entry-level software development role to contribute and grow.

EDUCATION

Dharmsinh Desai University

Bachelor of Computer Applications

July 2023 - May 2026

Sharda Mandir School

Higher Secondary Education

May 2023

WORKING EXPERIENCE

Web Developer Intern | Creative Werk Designs

December 2025 - March 2026

Completed a 4-month Web Development Internship, contributing to live projects using HTML, CSS, JavaScript, and PHP. Optimized website performance, identified and resolved bugs, and enhanced user experience through efficient and user-friendly design solutions.

TECHNICAL SKILLS

- Languages: PHP, Python, JavaScript
- Frontend: HTML, CSS
- Backend: Node.js, .NET
- Database: MySQL, MongoDB
- Tools: VS Code, Postman, XAMPP, MongoDB Compass

INTEREST

- Problem Solving
- Editing
- Learning New Technologies

PROJECTS

• City Car Rent – Rent a Car System (PHP, MySQL)

Designed and developed a web-based Car Rental System with integrated booking and administrative functionalities, implementing CRUD operations to efficiently manage vehicles, customers, and drivers, including driver assignment and availability management.

• Bakery Management System (PHP, MySQL)

Designed and developed a web-based Bakery Management System for managing products, customer orders, billing, inventory, and delivery operations. Implemented CRUD functionalities using PHP and MySQL, including delivery boy management and order assignment features to streamline bakery operations.

• Daily Expenses System (Python)

Built a Python-based application for efficient tracking, management, and analysis of daily expenses, improving financial organization and usability

• Inventory Management System (MERN Stack)

Designed and developed a MERN stack application for efficient product tracking and inventory management, enhancing stock accuracy and streamlining overall operations.
